SUMMARY

Software Engineer developing **Full-Stack AI Products** with a passion for building intelligent, scalable, and impactful solutions. Experienced in creating AI-powered platforms, intelligent assistants, automation systems, and data-driven applications that solve real-world challenges. Driven by innovation, problem-solving, and a commitment to delivering meaningful digital products that create lasting value.

EXPERIENCE

Data Engineering Intern

Oct 2025 – Dec 2025

AWS Academy (AICTE & EduSkills)

Virtual

- Designed foundational cloud-based data pipelines using AWS services for ingestion, storage, and processing.
- Implemented scalable data workflows supporting real-world data engineering scenarios.
- Strengthened expertise in distributed data systems and cloud-based processing architectures.

Microsoft Azure Intern

Jan 2026 – Feb 2026

Microsoft Elevate & AICTE

Remote

- Completed a 4-week internship focused on Microsoft Azure cloud Emerging Technologies program.
- Developed foundational knowledge of cloud computing, Azure services, and cloud-based deployment workflows.
- Worked on hands-on labs involving cloud infrastructure, data processing, and scalable application deployment.

PROJECTS

Behavioral Authentication System for Web App Security

- Developed a behavioral biometric authentication system using keystroke dynamics and mouse movement analysis.
- Built anomaly detection models with **scikit-learn** to strengthen web application security.

AI-Powered Medical Assistant Chatbot (RAG-Based)

- Developed a RAG-powered medical chatbot for accurate, context-aware healthcare question answering.
- Integrated document processing, embeddings, vector search, and LLMs for source-grounded response generation.

EDUCATION

Velagapudi Ramakrishna Sidhartha Engineering College

2024 – 2027

Bachelor of Technology (Information Technology) (8.26 CGPA)

India

AANM & VVRSR Polytechnic College

2021 – 2024

Diploma in Computer Science (95.29%)

India

SKILLS

Languages: Python, Java, JavaScript (React.js), SQL (MySQL, MongoDB)

Tools: Git, Antigravity, Google Agent-Development Kit, MongoDB Developers Toolkit

CERTIFICATIONS ACHIVEMENTS

- AWS Certified Cloud Practitioner [View Badge on Credly](#)
